

ATTACHMENT A
SUMMARY OF PROPOSED AMENDMENTS

Rules 102 and 1302

Add perchloroethylene, HCFC 225ca, HCFC 225cb, and HFC-43-10mee to the "Exempt Compounds" definition of Rule 102. Perchloroethylene is proposed to be listed, effective December 2, 1997, under the Group II Exempt Compound category. HCFC 225ca, HCFC 225cb, and HFC-43-10mee are proposed to be listed under the Group I Exempt Compound category, effective the date of adoption. The definition of the terms "Exempt Compounds" and "Ozone Depleting Compounds" were eliminated in Rule 1302 and referred to Rule 102.

Rules 1106.1, 1151, and 1171

Allow the use of VMS, PCBTF, and perchloroethylene in operations regulated under Rules 1106.1 and 1151. Allow the use of perchloroethylene in operations regulated by Rule 1171.
