ATTACHMENT A

SUMMARY OF PROPOSAL

Proposed Amendments to Rule 1171 – Solvent Cleaning Operations
1. Delay by 18 months the VOC compliance date for cleaning of ink application equipment used in lithographic/letterpress printing (except newsprint), screen printing, and ultraviolet/electron beam inks, clauses (c)(1)(D)(iv) thru (c)(1)(D)(vi).
2. Temporarily raise the interim VOC limit from 500 to 650 grams per liter for the cleaning of UV/EB ink application equipment until December 31, 2007, clause (c)(1)(D)(vi)
~~2.~~3. Add definition for newsprint, subdivision (b)
~~3.~~4. Establish new date for completion of the technology assessments, subdivision (d)
~~4.~~5. Clarify the exemption for aerosol products, paragraph (h)(4)
~~5.~~6. Extend by 18 months the exemption for the cleaning of UV/EB lamps and reflectors, and the cleaning of metering rollers, dampening rollers and printing plates, subparagraph (h)(3)(H) paragraph (h)(7), respectively.
~~6.~~7. Add a limited exemption for automatic roller and blanket clean up systems, paragraph (h)(8)
~~7.~~8. Remove outdated rule requirements, subdivision (h)
